

CV—Timothée BONNET

Last updated September 7, 2021

PERSONAL DATA

BIRTH DATE: November 1st 1988
NATIONALITY: French & PERMANENT RESIDENT in Australia
WORK ADDRESS: Research School of Biology
ANU College of Science
46 Sullivans Creek Road
Canberra
2600 ACT
Australia
PHONE: +61 (0)4 57 126 760
EMAIL: timotheebonnetc@gmail.com
PERSONAL PAGE: <https://timotheenivalis.github.io/>
LANGUAGES: French (mother tongue), English (fluent), Spanish (basic)

ACADEMIC POSITIONS

DEC 2021 - DEC 2024	DECRA fellow at the Research School of Biology, Australian National University (ANU)
JUL 2017 - NOV 2021	Post-doctorate at the Research School of Biology, ANU In Loeske Kruuk's group.
MAR 2019 - DEC 2021	Teacher/consultant at the Biological Data Science Institute, ANU (20%FTE) Lead by Eric Stone.
OCT 2016 - JUL 2017	Post-doctorate at IEU, University of Zürich. In Arpat Ozgul's PopEcol group.

EDUCATION

OCT 2012 - SEP 2016	PhD student in Zürich evolutionary biology PhD program. <i>Individual-level causes and population-level consequences of variation in fitness in an alpine rodent.</i> Under the supervision of Dr Erik Postma.
SEP 2011 - JUN 2012	M.Sc. in evolutionary biology and ecology. University Montpellier II, France. <i>Research project:</i> <i>Neutral processes and biased mitochondrial introgression at the center for population biology and management (CBGP).</i> Supervised by Drs Raphaël Leblois, Pierre-André Crochet and François Rousset.
SEP 2008 - SEP 2011	B.Sc Biology: National engineering school in biology and agronomy, Montpellier Supagro, France. Specializations in biodiversity conservation, ecology, population genetics, GIS. <i>Research projects:</i> JAN-AUG 2011 <i>Population dynamics of rodents, and agricultural practices.</i> Chizé Centre for Biological Studies (CEBC), France. Supervised by Drs Bertrand Gauffre and Vincent Bretagnolle. SEP-DEC 2010 <i>Genetic identification, speciation, hybridization and role of gonosomes in flycatchers and sparrows.</i> Centre for Ecological and Evolutionary Synthesis in Oslo, Norway. Supervised by Prof. Glenn-Peter Sætre. MAY-AUG 2010 <i>Meadow birds phenology, conservation and agriculture</i> at LPO (Birdlife international), in Grenoble, France.

SEMINARS

Invited seminars

- *Long-term monitoring to study on-going adaptive processes.* Long-term animal research seminar series. Duke University , USA, September 28th **2021**.
- *Measuring current adaptive evolution in wild animal populations* Centre for Biodiversity Dynamics, NTNU, Trondheim, Norway, April 20th **2021**.
- *Stochasticity, fitness and evolution* Bern University, Switzerland, March 9th **2016**.
- *Body mass selection in an alpine rodent: does it fluctuate? does it matter?* Radboud Universiteit Nijmegen, the Netherlands, December 4th **2014**.
- *Variation in fitness: proximal and ultimate causes.* CNRS Brunoy, France. October 28th **2014**.
- *Individual-level causes of variation in fitness in an alpine rodent.* IEU, Zurich, September 29th **2014**.

Symposium

- *Towards a unified biology of populations: Integrating ecology, evolution and demography.* Evolution, Montpellier, France, August 18-22 **2018**. Co-organized with Erik Postma, Matthew Wolak, and Ron Brassar.

Contributed seminars

- *Additive genetic variance in fitness and how fast is adaptive evolution in wild animals today?* American Society of Naturalists, Asilomar, USA, January 9-12 **2021**.
- *How fast are wild animals currently adapting?* International Conference of Quantitative Genetics, Brisbane, Australia, November 2-13 **2020**.
- *How fast is adaptive evolution in wild animals today?* Evolution, Sydney, Australia, November 23-26 **2019**.
- *How much are wild vertebrates populations evolving right now?* Evolution, Montpellier, France, August 18-22 **2018**.
- *Genetic evolution, climate change, and wild animal evolution: to understand and predict.* Collaboration across boundaries, Canberra, Australia, December 7th **2017**.
- *Demographic consequences of adaptive evolution and the nature of selection* Wild Animal Models Biennial Meeting, Saint-Michel-des-Saints, Québec, Canada, July 3rd-7th **2017**.
- *What rescues the voles. Demographic consequences of contemporary adaptive evolution in a wild rodent population* Evolution, Portland, Oregon, USA, June 23rd-27th **2017**.
- *Adaptation against selection* Evolution, Austin, Texas, USA, June 17th-21th **2016**.
- *The stasis that wasn't: Adaptive evolution goes against phenotypic selection in a wild rodent population* Biology16, the Swiss conference on organismic biology, Lausanne, Switzerland, February 11th-12th **2016**.
- *The stasis that wasn't: Adaptive evolution goes against phenotypic selection in a wild rodent population* 3rd Young Natural History scientists Meeting, Paris, France, February 2nd-6th **2016**.
- *Rapid adaptive evolution opposite to phenotypic selection. Or why snow voles get smaller despite selection for larger individuals* European Society for Evolutionary Biology (ESEB) 15th, Lausanne, Switzerland. August 10th-14th **2015**.
- *Evolution outreach through dirtiness* Poster at the ESEB Workshop on Teaching Evolution, Lausanne, Switzerland. August 9th **2015**.
- *Successful by chance? The power of mixed models and neutral simulations for the detection of individual fixed heterogeneity in fitness components* GDR Ecological Statistics meeting, Lyon, France, March 12th-13th **2015**.
- *Why voles do not become beavers: indirect relationships between traits and fitness counteract selection for larger individuals in a snow vole population* Poster at Biology15, the Swiss conference on organismic biology, Dübendorf, Switzerland, February 12th-13th **2015**.

- *Fluctuating selection and genetic gradients on snow vole mass* Wild Animal Models Biennial Meeting, University of St Andrews, U.K. July 21st-25th **2014**
- *Lord of the scree by chance or by merit? Dynamic vs. fixed heterogeneity in an alpine rodent population.* Evolutionary Demography Society (EvoDemoS) first meeting, in Odense, University of South Denmark. October 5th-10th **2013**.
- *Climatic variability, viability selection and demography in an alpine rodent.* European Meeting of PhD Students in Evolutionary Biology (EMPSEB) 19th, at university of Exeter, U.K. September 3rd-7th **2013**.
- *Neutral processes and cyto-nuclear discordant introgression.* Colloquium Petit Pois Dérivé, Avignon, France. August 29th **2012**.

SKILLS

Scientific

Biology	Evolutionary biology, population and quantitative genetics, population ecology and demography, contemporary evolution.
Statistics	Generalized Linear Mixed Models, Non-linear models, Bayesian methods, Mark-Recapture analysis. High-Performance computation, Individual based simulations, Experimental design.
Mathematics	Linear algebra, analysis, probabilities.

IT

O.S	Linux (primarily Ubuntu), Microsoft Windows, MacOS X
Scripting & programming	Expansive experience: R, C/C++, Bash shell, BUGS/JAGS/Stán, L^AT_EX, Markdown Occasionnal use : Matlab, Python, S4, HTML Some projects visible on GitHub: https://github.com/timotheenivalis
High Performance Computing	Regular work on the NCI Raijin/Gadi & the GDUserver in Canberra CBGP Cluster in Montpellier, ScienceCloud in Zurich

Miscellaneous

Driver license, 4WD driving, first aid courses (2018, 2013, 2006), manual digital photography.

TEACHING

Courses and workshops

SEPT 2021	Advanced R programming for Atlas of Living Australia CSIRO, 3h/week for 4 weeks
JUL-NOV 2021	Biol 8001 “Consulting in Quantitative Biology” at the Australian National University, 3h/week for 12 weeks
MAY 2021	“Linear mixed models” at the Australian National University, twice 3h
JUL-NOV 2020	Biol 8001 “Consulting in Quantitative Biology” at the Australian National University, 3h/week for 12 weeks
APR-JULY 2020	Weekly “Biological Data Science Course ” at the Research School of Biology: R, Statistical modelling, tools for reproducible science
OCT 2018	3-days course “Statistical thinking and experimental design” at the Research School of Biology
FEB 2018-APRIL 2020	Fortnightly workshops covering various aspects of statistics and coding in R (https://github.com/timotheenivalis/RSB-R-Stats-Biology)
AUG 2016	Two weeks teaching assistant for Keller’s and Manser’s field course, Białowieża Forest, Poland
MAR 2016	Ten afternoons of practicals in Ozgul’s population ecology
MAR 2015	One hour practical in Postma’s intro to quantitative genetics
FEB 2015	One day introductory course to L ^A T _E X(self-organized)

Supervision and tutoring

MARCH 2021 - CURRENT	PhD panel for Jennifer Evans, along with Prof. Mikheyev and Prof. Kruuk.
APR 2018 - OCT 2021	Mentoring of three PhD students with the RSB HDR Mentoring Program
DEC 2016	3 weeks supervision of three Bachelor student projects
JUL 2014 - DEC 2015	Master student (Andres Hagmayer, now evolutionary biology PhD student in Wageningen, Netherlands)
DEC 2013	3 weeks supervision of a Bachelor student project

Assessment

APR 2021	One Honours/Masters Proposal Assessment at ANU
SEP 2020	Two Honours/Masters Proposal Assessment at ANU
APR 2020	One Honours/Masters Proposal Assessment at ANU

Consulting

Over 150 sessions of statistical and programming consulting for other researchers. In a few cases my help has led to acknowledgements in publications:

- Ratnayake & al. (2021). Visual obstruction, but not moderate traffic noise, increases reliance on heterospecific alarm calls. Behavioral Ecology. doi:10.1093/beheco/arab051
- Vrtílek & al. (2021). The role of maternal effects on offspring performance in familiar and novel environments. Heredity 127, 52–65
- Tegtman & Magrath (2020). Discriminating between similar alarm calls of contrasting function. Philosophical Transactions of the Royal Society, B, 375: 20190474.

REVIEWING ACTIVITY

Journals

67 reviews for 30 journals (<https://publons.com/a/822275/>), including: PNAS, Molecular Ecology, Heredity, Proceedings of the Royal Society B: Biological Sciences, BMC Evolutionary Biology, Evolution, Oikos, Methods in Ecology and Evolution, The American Naturalist, Current Biology, Systematic Biology, eLife, PCI Evolutionary Biology...

Grants

2021	Three discovery project grants (ca. 360,000AUD, 620,000AUD and 660,000AUD) reviewed for the Australian Research Council.
2017	One grant (4 years, ca. 400,000€) reviewed for the Agence Nationale de la Recherche, France.

Conferences

2020	Jury member for the RSB PhD student conference, ANU, Australia
2016	Jury member for biodiversity and conservation at YNHM 16, Paris

EXTERNAL ACTIVITIES

Popular science

Contributions to:

- Radio interview about the scientific legacy of Darwin's Origin of Species (**Nov 2019**) <https://timotheenivalis.github.io/science/ABCinterview/>.
- the National Youth Science Forum at RSB (Two talks in JAN 2019) www.nysf.edu.au.
- Planet-Vie, resources for biology teachers. (1 article, 2018) <http://planet-vie.ens.fr/article/2536/evolution-action>
- Scientific "speed-dating" with the public at ESEB 15 and Biology 16 conferences
- Dans les testicules de Darwin. (7 articles, 2013 - 2015) <http://danslestesticulesdedarwin.blogspot.ch>
- Un pied dans le plat. (1 article, 2012) www.unpieddansleplat.fr/menu_gauche/alimentation_sante/laitage_et_cancer.php

Ornithology and naturalism

MAY 2021	Wildlife and science expert guide on a nature tour to far north Queensland, with Nature Art Lab
2012 - current	Member of the regional rare bird committee Tarn-Aveyron http://www.faune-tarn-aveyron.org/index.php?m_id=20025

COMPETITIVE FUNDING

- 2020 | Discovery Early Career Research Award (DE210100549), for a 3-year research project (417,328AUD)
- 2018 | Co-applicant for RSB Innovation grant “Future proofing scientific rigour at RSB” (10,000AUD)
- 2018 | Center for Biodiversity Analysis synthesis grant (15,920AUD)
- 2016 | One year post-doc from UZH Forschungskredit (108,639CHF)
- 2016 | Fieldwork grant from the Georges and Antoine Claraz-Donation (770CHF)
- 2016 | Travel grant to attend the 3rd Young Natural History Scientists Meeting, Paris, France (150CHF)
- 2013 | Co-applicant for grant “Molecular and population genetic signatures of cytonuclear interactions: the Podarcis model”; led by Catarina Pinho. <https://app.dimensions.ai/details/grant/grant.3534828> (50,000EUR)
- 2012 | PhD fellowship at IEU UZH
